

Features

- ① **Access Nodes**
Concrete access points with bike racks and bins, linking to the existing asphalt path.
- ② **Multi-Sport Court**
Resurfaced plexi-pave court with markings for netball and basketball, and spectator seating to the perimeter. Opportunity for additional play line marking such as hopscotch and four square, or low level play / sports equipment (table tennis, fitness stations, etc...) along the north east side of the facility.
- ③ **Skatepark**
Skate area including lower level plaza and park features. Flat blocks, rails, mellow banks and transitions give beginners the opportunity to learn basic skatepark skills, with hips, transitioned pocket, apex banks/block/rail and extensions for more technical tricks.
- ④ **Seating Areas**
Sheltered seating with picnic tables located to the north east of the skatepark, with additional seating benches throughout the facility.
- ⑤ **Planting**
Existing trees to be retained, with additional planting to create a buffer between the sports court and skate area.
